BOY SCOUTS

WEDNESDAY, MAY 26

you are all interested in the boy scouts. Why? Not bejust because they are your own boys. Now we want you to see the most wonderful picture that has ever been filmed ,it is called The Boy Scouts and it teaches you The Boy Scout movement from the start to the finish. Do you realize what the boy scout movement is doing for the boys of this country. See this picture and you will admire your boy not because he is your boy but because he is a Boy Scout. Now this picture is not only educational but you will find a little comedy interspersed within the five reels which make up a delightful evening's enter

A lace un- tative statement as to the status and derskirt shows where the gown is equipment of the navy. draped up in the front.

QUAINT PARASOLS.

Ancient Fashions Are Revived In New Sunshades.

The quaint styles of parasols used from 1820 to 1830 have again appeared. Shirrings, puffings, pipings, cordings and knife plaitings are used in a variety of ways, to emphasize ribs, to outline gores and to form borders. Many odd shapes and rich color combinations are seen. Plain, severe styles. March 1, 1913. the most prominent being the sand dresses. There is a tendency to combine materials. In dressy, fancy models the sand tones are combined with bright colors. For instance, in one . . . model of brilliant red there is a border and a piping between the shirred manufacture, by 244 per cent. With gores in a rich sand color verging on reference to torpedoes, the increase

gold. A smart parasol developed in conbetween the gores, producing a leaflike effect. A very pretty parasol has of the torpedo works and the equipa border of sheer crape in a contrast- ment of a plant to construct mines ing color, looped in each section and will still further increase at decreased caught with a flat button effect. Battleship gray is a favorite color, being the possession of these plants in times used alone in tailored designs and in of emergency will enable the departcombination with the new reds and ment to be in a better state of pre-

blues in elaborate designs. Many striking shapes are seen. Among these is one with wide gores of richly colored material and narrow present composed of 4,355 line, staff portions in strines or checks. A cluster of shirring appears at the edge. Of special interest is the return of flat Japanese and Chinese effects, both plain and richly embroidered. Japa- crease of 12 per cent-than on March nese prints are in both silk and cotton. 1, 1914 and blue tones are appliqued over the inside surface of the parasol,

POCKETS ARE "IN."

****************** As for pockets, they are "in." Here is a point for all women to consider in connection with the pocket question: Do not be persuaded into permitting them to be placed where they cannot two years ago or as they ever had be easily reached.

At present they are boldly placed where every one may see them and stroyers have participated in the maas soon as the polonaise modes really ever before. All reports tell of the make their presence feit you will miss enthusiasm of officers and men and seeing the pockets. It does not follow the spiendid record made by the ships. they won't be present, for they will left to buy some necessary goods be hid, as they were when they were October is one of the best answers I modish before, underneath the polo- can give to your question as to the naise draperies or within the folds of navy's preparedness.

For the tailleur of dressy proclivities the pocketed skirt eliminates the possiappear on the coat only.

New vogues for these also introduce braided effects which simulate pockets rience, however, was of far greater and this, too, for skirts or suits made of novelty materials.

Defending His Administration He Sets Forth Increases In Every Branch of the Service.

department, affoat and ashore, to meet an urgent call.

For many years officers have written and talked about the formation of advance base material and the practice of exercising landing parties of seamen and marines in the use of this important adjunct to naval warfare. Congress appropriated money for this important plan of campaign, but never until January of last year was the navy thus exercised. Three months after extensive practice had been given for the first time in our navy the same fleet and the same men were called upon to land at Vera Cruz, and in the taking of that city the navy carried

More Efficient Than Ever.

out under fire what had been learned

"If the fleet was efficient in any degree before Admirals Badger and Fletcher carried out the drills thus detailed it is much more efficient today, and it will be made more ready every

"Upon my recommendation congress authorized the construction of five Dreadnoughts, to cost about \$14,000, 000 each, against two at \$13,000,000 each during the previous two years, and these five Dreadnoughts with
